Constitutional Law Basics

Public law is a compulsory unit in all LLB courses and increasingly Law departments are focusing on constitutional aspects of the law. This work provides a summarised overview to the course and can be used as an up-to-date supplement for older textbooks.

Beginning Constitutional Law

This volume presents a clear examination of the philosophy of law within a political, social, and economic framework. Coverage introduces readers to operative legal concepts, everyday law practices, substantive procedures, and the intricacies of the American legal system. Eliminating confusing legalese, the authors skillfully explain the basics—from how a lawsuit is filed to the final appeal—and review English legal roots. The survey addresses history and the law, court organization, procedure and evidence, limitations, constitutional law, criminal law, administrative law, environmental law, torts, contracts, and property law. For those interested in a greater understanding of the American legal system.

American Law and Legal Systems

The purpose of this handbook is to help educators at all levels to recognize potential legal hazards in educational settings and to learn how to negotiate the slick roads safely. The focus is on school and classroom issues, not district-level topics. Legal basics are discussed in the context of both informal anecdotes about actual situations and formal cases. Chapter 1 describes how laws for educators are made. The laws that affect schools and classrooms come from many sources: federal, state, and local. Chapters 2 through 10 focus on basic rights and responsibilities of educators. Topics include speech, conduct, and privacy issues; professional liability; classroom management; censorship, copyright, and the curriculum; supervision and discipline of students; property rights; confidentiality, and reporting requirements; chronic illness and medical emergencies; and sexual misconduct and sexual harassment. Chapter 11 discusses types of legal actions that educators may face and how to defend themselves. Legal citations follow each chapter. (MLF)

Constitutional Law Essay Basics

American Constitutional Law: Powers and Liberties, Sixth Edition provides a broad survey of the field without overwhelming students. The basics of constitutional theory are presented without getting mired in highly theoretical discussions, and cases are tightly edited to focus on the most important aspects, with additional cases on select topics condensed into narrative summaries. The book focuses on cases and expository text rather than extensive academic commentary, and introductory text provides direction to students as they read and analyze the materials that follow. Additionally, challenging hypotheticals are provided throughout the text for use as student self-assessments or to launch stimulating class discussions. This highly teachable book can be used for a one- or two-semester course and is easily adaptable to suit each professor’s preferences. New to the Sixth Edition: Updated through the Supreme Court’s 2017–2018 Term. Excerpts of major cases including: Murphy v. NCAA, Trump v. Hawaii, Whole Woman’s Health v. Hellerstedt, Fisher v. Texas, Matal v. Tam, Packingham v. North Carolina, National Institute of Family and Life Advocates v. Becerra, Trinity Lutheran Church v. Comer, and Masterpiece Cakeshop, Ltd. v. Colorado Civil Rights Commission. Summaries and omissions of older or outdated cases to reduce length. New questions and problems for added cases to promote self-assessment. Professors and students will benefit from: Easy adaptation to a one- or two-semester course. “Just-right” editing of major cases, with less important cases summarized in notes or narrative summary. Even-handed presentation of cases so adopters don’t have to “teach against” the text. Narrative introductions that provide students with context and organizational structure. Annual Supplement.

Law School Basics

American Law in a Global Context is an elegant and erudite introduction to the American legal system from a global perspective. It covers the law and lawyering tools taught in the first year of law school, explaining the underlying concepts and techniques of the common law used in U.S. legal practice. The ideas central to the development and practice of American law, as well as constitutional law, contracts, property, criminal law, and courtroom procedure, are all presented in their historical and intellectual contexts, accessible to the novice but with insight that will inform the expert. Actual cases illuminate each major subject, engaging readers in the legal process and the arguments between real people that make American law an ever-evolving system.

Success in law school is hard work and results from a combination of factors; such as, Memorization of Rules of Law, Application of FIRAC, Analytical Reasoning, and Diligence, Perseverance and Commitment. In this series, you will learn the FIRAC technique, the fundamental and foundational black letter rules of law for the first-year law school subjects, and the keys to sound analytical reasoning techniques. In law school constitutional law your primary focus is on the substantive principles of the Constitution and judicial interpretation of the Constitution. It is important to remember that in law school constitutional law the goal is not to teach you the
practical principles of constitutional law but to teach you to think about identifying issues and memorizing rules of law so that you can excel on law school exams, and ultimately the Bar exam.

The Student's Guide to Understanding Constitutional Law

This book is designed to introduce students to the highlights of the first-year curriculum at a U.S. law school. The first chapter provides an overview of the U.S. legal system. The seven chapters that follow focus on basic foundational subjects: constitutional law, civil procedure, contracts, torts, property, criminal procedure, and criminal law, each in a separate chapter. Although the first chapter consists entirely of articles and other commentary, the other seven chapters consist mainly of edited court decisions. All of the chapters contain notes and questions, highlighting important issues for discussion and providing citations to cases, articles, and other materials for more in-depth study. The book is intended for several types of students: First, it is designed for international students who are attending a U.S. law school to pursue an LL.M degree or an S.J.D. degree. This book gives such students the opportunity to take an intensive course on U.S. law, thus enabling them to learn the fundamental concepts before taking upper-division courses. Second, this book is designed for international students who want to learn about U.S. law but who are not planning to attend a U.S. law school. U.S. law professors can teach the course in foreign law schools using this text. Also, foreign professors who have been trained at a U.S. law school can teach U.S. law at their home institutions. Third, the book is designed for an undergraduate pre-law course at a U.S. college or university. Fourth, the book can be used at U.S. schools that train and certify paralegals. All four types of students share a common desire to learn the basics of U.S. law in one course. And all four types will benefit not only from the substantive materials but also from the experience of learning core subject areas.

Introduction to the Study of U.S. Law

Criminal Law: The Basics introduces readers to the history, sources, and concepts of criminal law in a clear and concise style that is ideal for undergraduates. By engaging with realistic hypothetical exercises, students learn how to identify the elements of substantive criminal offenses. Frank A. Schubert continues to emphasize the dual influences of common law and federalism in shaping American criminal law. New to the Third Edition: Dozens of recent primary cases text, including Miller v. Alabama on the sentencing of juveniles to life imprisonment without parole A review of the major milestones in American criminal law historyExpanded coverage of self-defense, including make my day and stand your ground statutory material in Chapter FiveBroad discussion of federal criminal law

Where To Download Constitutional Law Basics

When it comes to the complex subject of constitutional law, this publication does an excellent job at assisting the reader in learning the basics. Readers get an historical perspective, thanks to the constitutional timeline, and they can keep an eye on the big picture while reading individual chapters, using the constitutional summary. Connectors and organizers help link the subject of one chapter to another, and visual aids/models make complicated concepts easier to grasp. This popular publication is a valuable guide to understanding how the Constitution works.

Basic Legal Research

Whether you're new to higher education, coming to legal study for the first time or just wondering what Constitutional Law is all about, Beginning Constitutional Law is the ideal introduction to help you hit the ground running. Starting with the basics and an overview of each topic, it will help you come to terms with the structure, themes and issues of the subject so that you can begin your Constitutional Law module with confidence. A deceptively clear and simple approach with legal vocabulary explained in a detailed glossary, Nick Howard breaks the subject of constitutional law down using practical everyday examples to make it understandable for anyone, whatever their background. Diagrams and flowcharts simplify complex issues, important cases are identified and explained and on-the-spot questions help you recognize potential issues or debates within the law so that you can contribute in classes with confidence. This second edition has been updated to keep up to date with developments both pre and post the 2015 General Election as well as ongoing proposals for reform including: the referendum on independence for Scotland, increased devolved powers and the continued threat of the break-up of the Union Proposals to repeal the Human Rights Act 1998 and replace it with a U.K. Bill of Rights Plans for an in/out referendum on EU membership Reform of the role and composition of the House of Lords. Beginning Constitutional Law is an ideal first introduction to the subject for LLB, GDL or ILEX and especially international students, those enrolled on distance learning courses or on other degree programmes.

American Constitutional Law

The Impeachment Trials of Donald Trump: An Introduction to Constitutional Argument presents an accessible introduction to one of the nation's most searing constitutional confrontations between the President and Congress. The purpose of the book is two-fold: First, it provides a curated record of a constitutional moment of extraordinary importance in the history of modern democracy. As such, it can be used by any instructor wishing to add interest to constitutional law courses in or outside law schools, whether in departments of history, political science, or legal studies. Second, precisely because this event is important in understanding modern democracy, the book is pitched at a wider audience than standard legal texts, and can be used to teach the very basics of legal argument–how lawyers reason about the constitution–to undergraduates as well as first-year law students. Teaching constitutional reasoning can pose great difficulties when students are given ancient 18th-century materials with no apparent relevance to pressing issues in modern memory. Throughout the book, students are asked to consider the basic form of arguments in constitutional law: text, history, past precedent, future precedent, and democratic ethos. This book contributes to the growing literature addressing democratic constitutionalism–constitutional reasoning outside the courts. More importantly, it provides a lively–and exciting–context in which to teach legal reasoning for introductory courses on the Constitution.

**Constitutional, Civil Liberties and Human Rights Law**

Each legal system has its peculiarities and Dutch law is no exception. To understand a legal system profoundly, it is not enough to study the legal rules in isolation. In this book, the Dutch legal system is explained in relation to its values and cultural background. The basics of the main areas of law - constitutional, criminal, and private law - are discussed clearly. In addition, specific topics are introduced in which the connection between Dutch law and its culture and values are investigated in detail - legislation, criminal drugs policy, and family law. The background of Dutch law is given depth with an introduction to the system as a whole, to legal history, and the court system. Throughout this second edition, the European context of the Dutch system is taken into consideration. The book can be used as an introduction to Dutch law for foreign students and others who are interested in the legal system of the Netherlands.
